

# Radio Motor T050 RTS with External Power supply

T050 RTS motors are part of the ACT FOR GREEN® process, they received the eco-design expertise to reduce their environmental impact.

## ELECTRICAL CONSUMPTION

Eco-design of this product has allowed to move to a standby consumption below 0.2W. This action reduces considerably impacts because it is the first source of environmental impact.

## DURABILITY

This product has been designed to facilitate dismountability and repairability in factory.

## RAW MATERIALS

This product has been tested by an external laboratory and is compliant with REACH and RoHS regulations.

## PACKAGING

This packaging guarantees the use of 50% recycled fibers cardboard and 100% recycled fibers paper for instruction guide. Renewable materials are favored for wedges.
