

Enjoy **Smart Shading** Solutions

An ecosystem of smart shading products designed to simplify your life

somfy.

Life with Somfy Smart Shading Products

Start your day with natural light

As your alarm goes off, your shades open to wake you with natural light, your lights fade on automatically and your smart speaker provides the day's outlook with traffic and weather reports.

Work & play comfortably

Adjust the shades with the sound of your voice to ease the glare of the midday sun on your computer screen while your automatic lights adjust to provide optimal lighting for your work environment.

Your Somfy Smart Shades create the perfect
ambiance in your smart home at all times.

Relax by just saying the word

Ask your shades to automatically adjust to allow for the perfect amount of sunlight, your thermostat to set itself to your ideal temperature and your television to turn on to your favorite show without having to lift a finger.

End your day on the perfect note

Your shades fully close at dark to provide privacy, your lights automatically turn on and your smart speaker plays your wind-down playlist.

Extend your smart home experience to include natural light control with simple, stylish shading.

Create privacy by automatically lowering shades as night approaches.

Effortlessly adjust window coverings as desired.

Create a peaceful environment with near-silent operation.

Smart shading benefits you

Brighten your home interior with connected blinds and curtains seamlessly integrated with the smart home devices you already use every day.

Optimize your space with sensors that automatically open or close your shades based on temperature to warm or cool a room, or based on natural light levels to protect valuable furnishings.

Offer daily convenience with multiple ways to control your shades, including wall switches, mobile apps, remote controls and voice control capabilities.

Eliminate dangerous cords to keep precious loved ones safe.

Ensure peace of mind with two-way feedback that visually confirms your shade position while home or away.

The Somfy Guarantee

With Somfy, you will have the reassurance that your smart shades are supported by more than 50 years of innovation and leadership in motorization. Each of our motors comes with a 5-year warranty - that's our commitment to high standards.

The Somfy Smart Shading Difference

Enjoying your Smart Shades? With Somfy, it's as easy as 1 2 3!

1. Connect

Your Somfy Smart Shading products will easily connect to all of your existing smart home devices with the Somfy TaHoma app or your TaHoma device.

2. Launch

Set up and launch scenes and scenarios with all of your smart home products to create the perfect ambiance.

3. Enjoy

Your new home experience is ready for you to sit back and enjoy.

Third-party Compatibility

The Zigbee 3.0 protocol that powers Somfy's Smart Shading product range is open, evolutive and reliable. And, most importantly, it ensures compatibility with a variety of other connected home products and brands.
