CONTROL

Now it is simple to adjust large, tall and hard-to-reach window coverings. Somfy's expertly designed motors offer ease of operation, allowing you to effortlessly and conveniently control the light and view with the touch of a button.

Perfect for rooms with many windows, you can easily lift multiple shades with quiet precision - positioning them exactly where you want.

Take control of your lighting environment and create the perfect atmosphere in every room of your home.

Motorized window coverings powered by Somfy can instantly adjust to your changing activities or the changing sunlight. Relax knowing that a programmed timer provides enhanced security, creating that lived-in look even when you are away.

Enjoy greater comfort and energy savings as you effortlessly eliminate harsh glare when viewing television and computer screens while efficiently controlling heat gain and loss.

Motorized window coverings can automatically lower throughout the day to accommodate the setting sun, block harmful UV rays, and protect your valuable interiors. Offered in a variety of styles to suit your décor, select a window covering to protect your view, maintain privacy, or anything in between. The possibilities are endless.

DID YOU KNOW?

Window coverings powered by Somfy are compatible with third-party home automation systems. That means you can control your motorized window treatments from the same home automation remote, touch-screen, wall panel or smartphone which also controls lighting, security, HVAC and audio-video equipment.

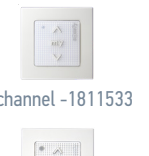

Somfy offers a wide variety of controls to suit your lifestyle and personal preference.

You may choose from a broad range of colors and options such as hand-held remotes, wireless wall switches, table top controls, automatic timers and app control. Somfy's Radio Technology Somfy® (RTS) options feature enhanced control with no line of site required. This eliminates the need to point the control at your motorized window coverings.
